

[Sankofa International, Inc.](#) (Sankofa), is a tax exempt, nonprofit organization registered in Washington, D.C. The mission, in short, is to help Africa's needy and has been doing so since 1994. Success stories include, but are not limited to, taking electricity into villages; feeding orphans; awarding full scholarships (academic and technical); jobs creation; providing housing, clothing, clean water, and lots more. To date, this has been accomplished with no government grants or corporate sponsorship. It's all been paid out-of-pocket, giving God the praise and glory.

In late 2014, [Sankofa](#) launched Sankofa Organic International Farms to provide quality jobs and quality foods to help create a healthier people. For Farm details, please read Sankofa's newsletter (December 2015; Volume 1).

Consistent with Sankofa's mission, the Farm will help reduce the high unemployment rate among surrounding villages while providing opportunities for people to make better, long term, life-management decisions.

One of Sankofa's goals is to make every effort to ensure Farm operations are environmentally friendly supporting "greening" initiatives. This includes, but is not limited to, the utilization of solar power to provide electricity for the Farm.

To find out how you can help support this worthwhile initiative, see the attached donation plan. Please note that donations can be made on an individual or group basis; therefore, feel free to share this project with your church, club, association, team, family, etc.

Your interest and support are greatly appreciated.

Richard C. Willis

President and CEO

Sankofa International, Inc.

In late 2014, [Sankofa](#) launched Sankofa Organic International Farms in Ghana to provide quality jobs and quality foods to help create a healthier people. The Farm currently houses pigs, goats, and chickens. Other animals will be added in 2016. You can play a key part by participating in one or more of the donation categories. Contact [Sankofa](#) today. Your donation is tax deductible.

NOTE: SANKOFA RAISES ANIMALS FOR BREEDING AND FOOD. SLAUGHTERED ANIMALS ARE DONE SO [HUMANELY](#).

Reliable power is a serious problem in Ghana, nationwide. Therefore, consistent with Sankofa's efforts to adopt environmentally friendly practices (Greening) where-ever possible, the plan is to use solar energy as the primary source of power. Early on, this will be accomplished by portable industrial solar generators. Backup power will be provided by portable industrial gas powered generators. You can help Sankofa go green by donating the following.

Donate 1-4 Portable Industrial Solar Generators (4 Needed)

Used For Primary Power

\$20,000 Each

Lifetime plaque, recognizing the donor, placed on the generator

Donor photo and write-up included on Sankofa web site (with donor's approval)

Donate 1 Portable Industrial Gas Powered Generator

Used For Backup Power

\$40,000

Lifetime plaque, recognizing the donor, placed on the generator

Donor photo and write-up included on Sankofa web site (with donor's approval)

General Donation—\$25 Minimum

Name placed on web site
